

Lo-Interior Bike Rack

The Lo Interior Bike Rack is a simple, narrow-profile bike rack that excels in tight places.

Ideal for use in residential bike rooms, this rack can be installed on the floor or wall. It can also be spaced in multiple ways to maximize the bike count of any room.

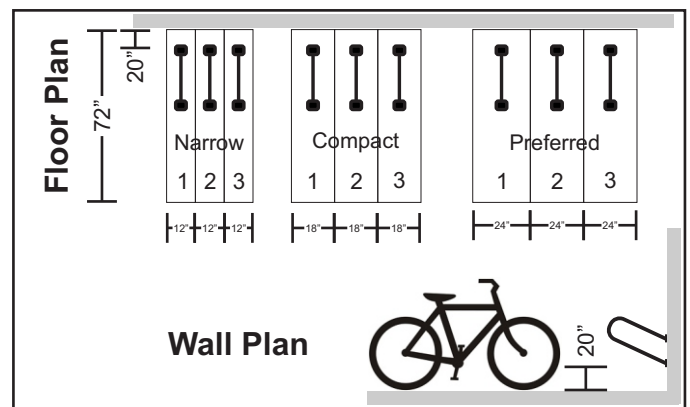

Easy-to-use, Lo's sloped design suits all types of bikes and creates multiple locking positions so that the frame and at least 1 wheel can be securely attached with a U-Lock or chain.

Supporting the bike above the centre of gravity, pedals can be placed between the posts to help the bike stand stable and upright. Manufactured for strength from tubular steel and welded steel plate.

Black Powder coat. For installation on concrete surfaces only.

Made in Vancouver by Advantage.

Lo-Interior Bike Rack

Installation Instructions:

- 1 - Drill a 3/8" hole, 1.25" deep.
- 2 - Vacuum any drill dust from the hole.
- 3 - Align the rack's base plate with the hole.
- 4 - Hammer an anchor bolt into the base & hole.
- 5 - Hand-tighten the nut.
- 6 - Drill a second hole 9" away from the first.
- 7 - Hammer an anchor bolt into the base & hole.
- 8 - Firmly tighten both nuts to expand the anchors.
