

# T-Rack Vertical Bike Rack

---

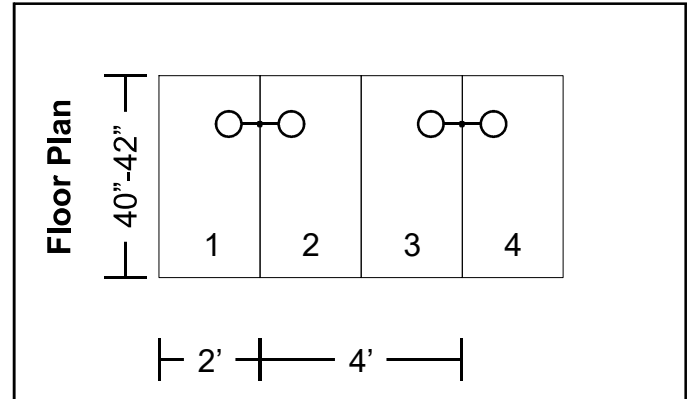

So you need a vertical bike space but don't have a wall to hang it on: You need a **T-Rack**.

Quality made from welded steel components, the T-Rack saves floorspace by supporting up to 2 bikes in the upright position. Often used in front of windows, drywall, or in the middle of a room.

Black powder coat. Available in single or double bike versions. Suitable for concrete surfaces only.

Manufactured in Vancouver by Advantage.

# T-Ring Floor Mounted Bike Rack

## Installation Instructions:

- 1 - Drill a 3/8" hole, 1.25" deep.
- 2 - Vacuum any drill dust from the hole.
- 3 - Align the rack's base plate with the hole.
- 4 - Hammer an anchor bolt into the base & hole.
- 5 - Hand-tighten the nut.
- 6 - Drill the second and third hole.
- 7 - Hammer an anchor bolt into the base & hole.
- 8 - Firmly tighten all nuts to expand the anchors.
