

Wave Exterior Bike Rack

The Wave Exterior Bike Rack brings a clean, modern look that compliments any setting.

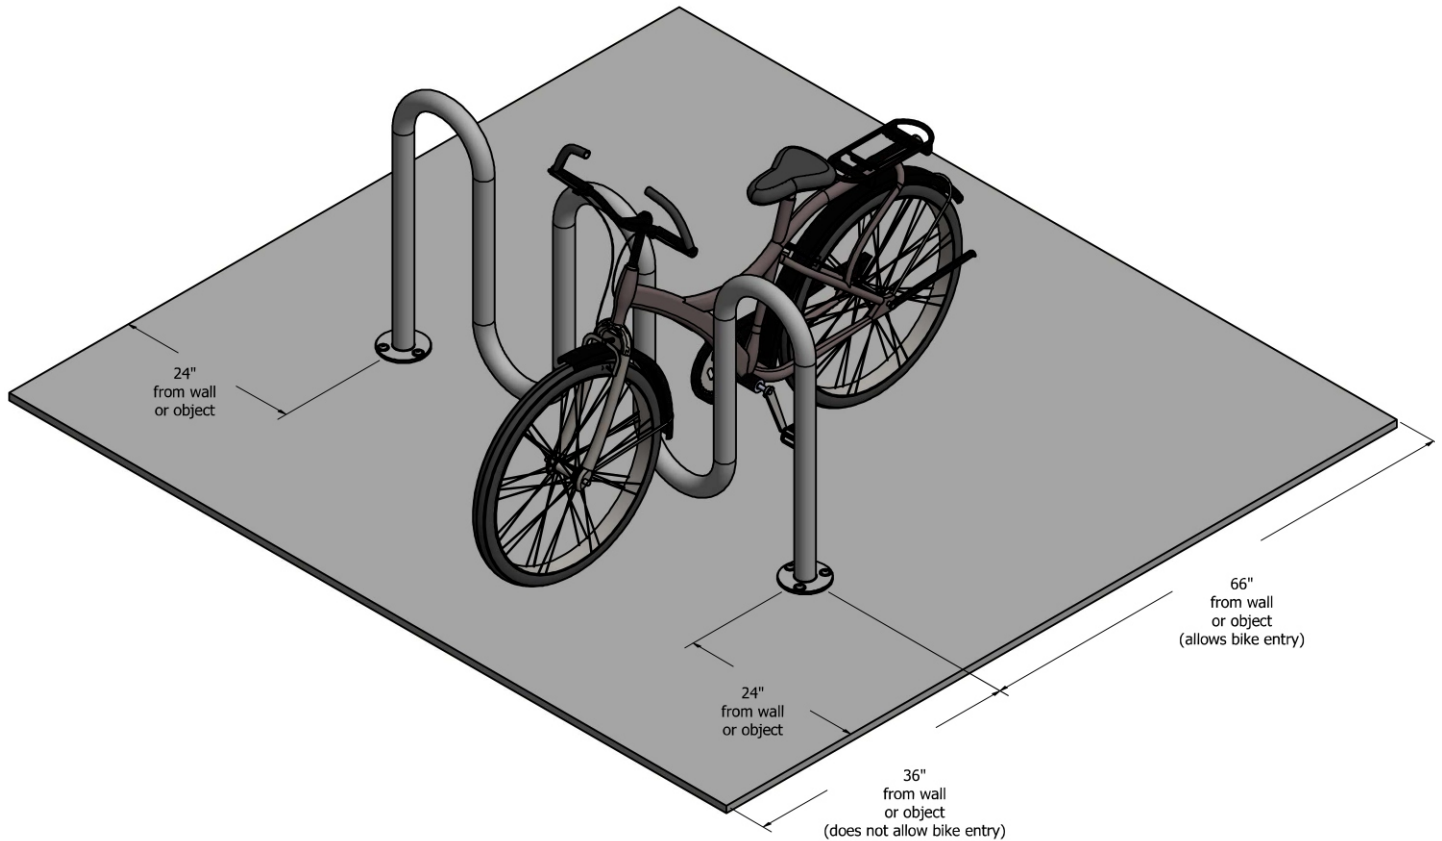

Quality made from tubular steel, the Wave offers secure, stable parking for up to 7 bikes.

Solid and stable, this rack supports the bike above the centre of gravity, and allows both the frame and at least 1 wheel to be attached with a U-Lock or chain.

Black powder coat or Stainless Steel.
Flange mounted. Concrete pad required.
Available in 5 or 7 bike versions.
Installed by Advantage.

Wave Exterior Bike Rack

Installation Instructions:

- 1 - Drill a 3/8" hole, 1.25" deep.
- 2 - Vacuum any drill dust from the hole.
- 3 - Align the rack's base plate with the hole.
- 4 - Hammer an anchor bolt into the base & hole.
- 5 - Hand-tighten the nut.
- 6 - Position the rack in place and drill the rest of the holes using the flange as a guide.
- 7 - Hammer-in and tighten the anchors.
